The TRUTH they don't want you to know!!

"Justice may be delayed but NEVER will it be denied"

In April of 1992, William Mayo had a bright promising future as a Commissioned Officer in the United States Army ahead of him. He was only one class 3 credits away from graduating from prestigious Morehouse College with a major in Psychology and minor in Criminal Justice when his dreams were snatched away by deception, coercion lies and misrepresentation.

In the blink of an eye William went from being an exceptional student and mentor with no prior criminal history, to a convicted felon sentenced to life in prison for a crime he did not commit. Explore the fascinating details of this true story as told by friends, family and William Mayo himself.

This compelling Audio CD tells the story of the events which led to William's 16 years of wrongful imprisonment.
